# 1. NESPF performance from 1<sup>st</sup> April to 30<sup>th</sup> June

## 1.1 Key administration tasks

Measuring performance is essential to evidence the efforts made by both the Pension Fund and Scheme employers to comply with statutory requirements and deliver a high-quality pension administration service. The Pension Fund aims to provide the information below within the agreed timescales shown.

Administration Task	Target	Completed cases during reporting period			Additional targets for completed cases during reporting period				Uncompleted cases during reporting period	
		Cases	Achieved	Percentage	+ 5 days	+ 10 days	+ 20 days	> + 20 days	Cases	Revised %
Notification of death in service	5 days	8	8	100.0%					4	66.7%
Notification of retirement estimate	10 days	68	68	100.0%					0	100.0%
Notification of retirement benefits	10 days	421	313	74.3%	88.8%	94.3%	96.9%	13	85	61.9%
Notification of deferred benefits	10 days	766	757	98.8%	99.1%	99.2%	99.2%	6	179	80.1%
Notification of refund	10 days	394	376	95.4%	97.0%	99.2%	99.7%	1	8	93.5%
Notification of transfer in value	10 days	10	10	100.0%					4	71.4%
Notification of transfer out value	10 days	64	40	62.5%	66.7%	69.8%	74.6%	16	14	51.3%
		1731	1572	90.8%				36	294	77.6%

**Completed cases during reporting period** - reporting output is based on 5 and 10 day targets built into workflow cases for processing administration tasks as declared in the pension administration strategy:

- Overall percentage achieved has reduced from 97% to 91% with a significant decrease in the revised percentage from 94% to 78%
- The reductions are down to ongoing home working as a result of Covid-19
- An impact assessment carried out shows that it takes longer to process benefits whilst working from home.

**Additional targets for completed cases during reporting period** - reporting output is based on adding 5/10/20 days to the 5 and 10 day targets built into workflow cases for processing administration tasks:

- 100% achieved for death in service, retirement estimates and transfers out albeit the volumes are lower than normal
- 36 cases completed in over 30 days, this amounts to 2% of completed cases
- Transfers out were taking longer as a result of focusing on retirement and death processing following guidance issued by tPR.

**Uncompleted cases during reporting period** - cases identified that were due to be completed and do not have a Reply Due date set in advance of the end of the reporting period:

- 294 cases were identified and contributed to the revised percentages
- With exception of estimates and refunds Covid-19 and home working has had a significant impact on all other performance measurements.

## 1.2 Previous years comparison

## 2. Employer performance from 1<sup>st</sup> April to 30<sup>th</sup> June

### 2.1 Policy on discretions received (85%)

Each Scheme employer is required under regulation 58 of the Local Government Pension Scheme (Scotland) Regulations 2018 to prepare a written statement of its policy on how it will exercise various discretions provided by the Scheme. This 'discretions policy' must be kept under review by employers and revised as necessary.

Since the introduction of the requirement to provide monthly information in this format the quality of the data received through i-Connect has been of a very high standard. This allows the Fund to provide accurate and up to date information to members, meet the requirements of The Pension Regulator and improved the accuracy of the financial information held for the valuation of the Fund.

Green	I-Connect events processed and validated by ERT
Amber	I-Connect events processed however missing or incorrect data identified by ERT
Red	I-Connect events not processed
